

CSSP 885
(Perforated 30 degree Slope Guard)
SMOKE DETECTOR GUARD

DESCRIPTION

The CHASE SECURITY SLOPED PERFORATED METAL GUARD has been designed to protect smoke detectors and other devices against vandalism or accidental damage. It is designed for Prisons, HUD Projects, Universities, Hotels, Parks, Schools, Hospitals, and other public locations where both functionality and aesthetics count.

Chase two-piece construction perforated metal guard is capped for safety and provides for ease of installation and maintenance of equipment once installed. For over 30 years Chase perforated metal products have been manufactured in a variety of sizes, styles and finishes, and sold to OEM accounts and distribution.

Can be used in a variety of applications.

FEATURES

- ◆ Additional models available with 1" frames.
- ◆ Unit can be provided with electrical provisions for conduit pipes of all sizes.
- ◆ Tamper-proof security screws available upon request.
- ◆ Chase custom designs and builds to your specifications.

ACCESSORIES

- ◆ Matching custom service plates available for wall or conduit applications.

Chase Security Systems, Inc., an MBE Enterprise, draws from over 30 years of experience selling to the Fire, Security, Computer, Sound, Food Processing, Forestry, Communications and Telecommunications industries. Many of our signature products are now being produced by other manufacturers but our perforated metal enclosures are still the product of choice for their strength.
